

A faster, smarter way to manage claims

Recovery transforms motor vehicle claims with a fully digital, end-to-end solution that minimises downtime, reduces costs and keeps your business moving. With real-time tracking, an expert in-house claims team and a streamlined repair process, managing claims has never been more efficient.

1

Instant incident capture

Instantly submit accident images at the scene via QR code technology.

2

Digital claims assessment

Fast, precise digital claims assessment for optimal results.

3

Faster repair time

We manage the process with your preferred repairer.

4

Real-time tracking

24/7 access to claims updates through our digital portal.

5

Reduced claims lifecycle

Streamline claims processing with expertise and real-time insights.

Seamless claims management

Claims should be simple, fast and cost-effective. Recoversure delivers a fully digital, end-to-end claims solution that reduces costs, minimises downtime and provides real-time insights. Backed by 40 years of industry knowledge, we help businesses keep vehicles on the road with speed and efficiency.

Expert support, powered by technology

From first notification to resolution, our streamlined process ensures efficiency. QR code technology enables instant incident capture, while real-time tracking provides 24/7 claims visibility. Digital assessments average under four hours per vehicle, accelerating decisions and repairs with your preferred provider.

With third-party recovery support, cost optimisation strategies and under-excess claims outsourcing, businesses experience shorter claim lifecycles, reduced expenses and greater control.

How it works

Instant incident capture – Quickly and accurately document accidents at the scene with our digital tools.

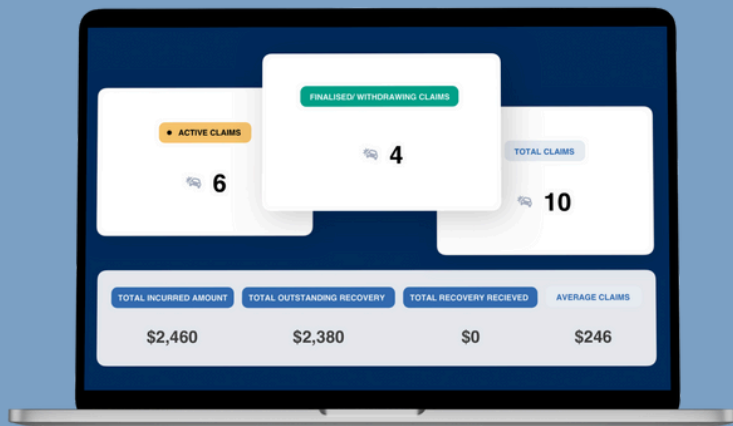

Rapid claims assessment – We prioritise speed and precision, digitally assessing your claims to ensure optimal outcomes with minimal delays.

Faster repair coordination – We manage repairs with your preferred provider to ensure quicker turnaround times.

24/7 real-time tracking – Monitor claims anytime, anywhere through our digital portal for complete transparency.

Early lodgement for cost savings – Submitting claims within 24 hours can cut expenses by over 15%.

Outsource under-excess claims – Reduce admin workload and improve efficiency by entrusting minor claims to us.

Recoversure's Claims Portal – Real-time tracking, instant reporting and seamless claims management in one powerful digital platform.
